### **EXAMINER'S AMENDMENT**

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 2/9/04, Patrick Hilsmier requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 50-1836 the required fee of \$110.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- In line 3 of claim 28 "said base member" has been changed to --said base plate--;
- In line 3 of claim 28 "and a pair of" has been replaced by --with said--;
- In the last two lines of claim 28 the phrase ", said side attachment portions having said first and second latch members coupled thereto, respectively" has been deleted;
- In the last line of claim 50 the phrase "front catch" has been changed to --front catch portion--;
- In line 3 from the bottom of claim 50 the phrase "front catch" has been changed to --front catch portion--;

Art Unit: 3683

- In line 4 from the bottom of claim 50 "front catch" has been changed to --front catch portion--;
- In line 5 from the bottom of claim 50 the phrase "rear catches" has been changed to --rear catch portions--;
- In line 8 from the bottom of claim 50 the phrase "rear catches" has been changed to --rear catch portions--.

2. The following is an examiner's statement of reasons for allowance: With regards to claims 1, 2, and 18, the Laughlin et al. '354 and Anderson et al. references fail to show or suggest the limitation of a rear binding member being configured and arranged without a lever portion that extends away from the longitudinal axis out of the boot receiving area beyond the side attachment portion to release the rear binding member. Both the Laughlin et al. '354 and Anderson et al. references show in figures 6B and 6, respectively, lever portions that extend away from the longitudinal axis out of the boot receiving area beyond the side attachment portion to release the rear binding member.

With regard to claims 33 and 49, Anderson et al., as modified, fail to show or suggest the limitation of the first and second rear catch portions including a plurality of first and second notches, respectively. Examiner notes that modifying the first and second rear catch portions of Anderson et al., as modified, to include a plurality of first and second notches would significantly alter the existing structure of the sole portion of Anderson et al. and would complicate the way in which the snowboard boot is attached and released due to the way in which the latch members interact with the existing loop-shaped catch portions 26,28 of the sole portion of the boot of Anderson et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melody M. Burch whose telephone number is 703-306-4618. The examiner can normally be reached on Monday-Friday (7:30 AM-4:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Lavinder can be reached on 703-308-3421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
